Action Taken Report on Parents Feedback

(Academic Year -2023-24)

In the academic year 2020-21, Corona has become a very serious disaster at the international level, causing immense damage to the society. During this period, teachers, non-teaching staff, students, parents etc. of our college faced a direct threat of this disaster. It is impossible to make up for the damage done, but in the expectation that the new hope has to participate in the development process again, it was not possible to contact the parents as expected in the academic year 2020-21 and 2021-22 because there was no fear in the society, so 47 parents were contacted and given a questionnaire to inform them about the questionnaire and the Requested to fill this questionnaire from experience and filled the feedback form from them. In this questionnaire, taking into consideration the feedback of the parents, efforts will be made at the college level to make improvements in the next academic year by keeping student interests at the center.

- 1) After taking note of the feedback regarding the availability of books related to the students' curriculum in the local market to the parents, as the feedback is not found to be satisfactory, efforts will be made to make the books taught in the college available in connection with the library in the local market.
- 2) In their feedback, the parents did not give a satisfactory feedback on whether the teachers raised issues related to gender, religion, caste, etc., or whether the teachers

were focusing on the best way to reconcile the students of different castes and religions. Therefore, by paying attention to this matter, teachers will be given instructions about maintaining intimate relationships with students.

3) Parents have expressed their opinion that the result obtained by the child from the course is not satisfactory. For this, all the employees will be notified and instructions will be given to remove them and such problems will not arise again, I will take care of this responsibility as a relevant factor.

4) The college will strive to bring out the best in transparency

5) Along with the courses taught in the college, the institute intends to introduce skill based courses along with the education the students are getting by providing many other vocational course facilities. As principal, efforts are being made to start vocational courses related to different subjects so that the students can contribute to the industry in the best possible way by getting skill based education certificate along with degree education. We will definitely try to provide different types of professional education in the next few years.
